

Topic: Replacement and End of Life Announcement

End of Life (EOL) Product: 1G - 1U/2U Modular Chassis System with Serial or Non-serial port management

Replacement Product: 1G - 1U/2U Modular Chassis System with optional CLI or GUI remote management

Date: July 19, 2016

The purpose of this document is to inform you Garland Technology's 1G - 1U/2U Modular Chassis System with Serial or non-Serial port management has been replaced* with the 1G - 1U/2U Modular Chassis System with optional CLI or GUI management.

This replacement offers additional features of optional CLI or GUI remote management and the ability to add port-to-port filtering modular TAPs to the chassis.

*****Please note, existing TAP modules will work in the new Chassis system; however the new filtering TAPs only work in the new Chassis.**

EOL Chassis	Is Now >	New Chassis Model #	Management Options
M1G1AC	Is Now >	M1G1ACE	1U; AC Powered Modular Chassis Non-management - add M1GL
M1G1ACS			1U; AC Powered Modular Chassis with CLI/GUI management - add M1GC
M1G2AC	Is Now >	M1G2ACE	2U; AC Powered Modular Chassis Non-management - add M1GL
M1G2ACS			2U; AC Powered Modular Chassis with CLI/GUI management - add M1GC
M1G1DC	Is Now >	M1G1DCE	1U; DC Powered Modular Chassis Non-management - add M1GL
M1G1DCS			1U; DC Powered Modular Chassis with CLI/GUI management - add M1GC
M1G2DC	Is Now >	M1G2DCE	2U; DC Powered Modular Chassis Non-management - add M1GL
M1G2DCS			2U; DC Powered Modular Chassis with CLI/GUI management - add M1GC

*For those customers that have the original chassis part numbers certified/validated within your organization, we will continue to provide you this part number and it will **not** be end-of-life (EOL).
